

FD-LRK

Long-range kit reflector

Application

5 to 120 m Reflective Beam detector:

- 5 to 50 m with the detector alone.
- 50 to 120 m with the detector and the Long Range Kit.

With no specialist tools or knowledge needed for installation and operation, the Fireray One is a standalone beam detector that prioritises ease of installation.

Using the Fireray One, it couldn't be easier to bring the benefits of beam detection to your application:

- Auto-aligns.
- Just steer the laser onto the Reflector, then at the flick of a switch, it aligns itself. 8 times faster than previous detectors.
- One person installation - everything can be done by one person.
- One standalone product - no specialist tools required; minimal prior knowledge and training needed.
